

# NEWS RELEASE

EMBARGOED UNTIL RELEASE AT 8:30 A.M. EST, OCTOBER 30, 2006

James E. Rankin: (202) 606-5301 (Personal Income) BEA 06-49  
Michael Armah: (202) 606-5302 (Personal Outlays)

## PERSONAL INCOME AND OUTLAYS: SEPTEMBER 2006

Personal income increased \$53.0 billion, or 0.5 percent, and disposable personal income (DPI) increased \$49.3 billion, or 0.5 percent, in September, according to the Bureau of Economic Analysis. Personal consumption expenditures (PCE) increased \$11.6 billion, or 0.1 percent. In August, personal income increased \$47.2 billion, or 0.4 percent, DPI increased \$46.4 billion, or 0.5 percent, and PCE increased \$15.3 billion, or 0.2 percent, based on revised estimates.

	2006				
	<u>May</u>	<u>June</u>	<u>July</u>	<u>Aug.</u>	<u>Sept.</u>
(Percent change from preceding month)					
Personal income, current dollars	0.4	0.6	0.4	0.4	0.5
<b>Disposable personal income:</b>					
Current dollars	0.4	0.5	0.6	0.5	0.5
Chained (2000) dollars	0.0	0.4	0.2	0.2	0.8
<b>Personal consumption expenditures:</b>					
Current dollars	0.7	0.3	0.8	0.2	0.1
Chained (2000) dollars	0.3	0.2	0.4	-0.1	0.4

NOTE.--Monthly estimates are expressed at seasonally adjusted annual rates, unless otherwise specified. Month-to-month dollar changes are differences between these published estimates. Month-to-month percent changes are calculated from unrounded data and are not annualized. "Real" estimates are in chained (2000) dollars.

This news release is available on BEA's Web site at [www.bea.gov/bea/rels.htm](http://www.bea.gov/bea/rels.htm).

### **Wages and salaries**

Private wage and salary disbursements increased \$31.0 billion in September, compared with an increase of \$10.1 billion in August. Goods-producing industries' payrolls increased \$1.3 billion, compared with an increase of \$3.0 billion; manufacturing payrolls decreased \$0.4 billion, in contrast to an increase of \$0.7 billion. Services-producing industries' payrolls increased \$29.7 billion, compared with an increase of \$7.0 billion. Government wage and salary disbursements increased \$1.8 billion, compared with an increase of \$3.3 billion.

### **Other personal income**

Supplements to wages and salaries increased \$6.4 billion in September, compared with an increase of \$5.3 billion in August.

Proprietors' income increased \$3.2 billion in September, compared with an increase of \$5.3 billion in August. Farm proprietors' income increased \$3.7 billion, compared with an increase of \$3.4 billion. Nonfarm proprietors' income decreased \$0.5 billion, in contrast to an increase of \$1.9 billion.

Rental income of persons increased \$3.5 billion in September, compared with an increase of \$2.7 billion in August. Personal income receipts on assets (personal interest income plus personal dividend income) increased \$7.8 billion, compared with an increase of \$7.5 billion. Personal current transfer receipts increased \$3.4 billion, compared with an increase \$14.5 billion.

Contributions for government social insurance -- a subtraction in calculating personal income -- increased \$3.9 billion in September, compared with an increase of \$1.7 billion in August.

### **Personal current taxes and disposable personal income**

Personal current taxes increased \$3.7 billion in September, compared with an increase of \$0.8 billion in August. Disposable personal income (DPI) -- personal income less personal current taxes -- increased \$49.3 billion, or 0.5 percent, in September, compared with an increase of \$46.4 billion, or 0.5 percent, in August.

### **Personal outlays and personal saving**

Personal outlays -- PCE, personal interest payments, and personal current transfer payments increased \$15.3 billion in September, compared with an increase of \$19.1 billion in August. PCE increased \$11.6 billion, compared with an increase of \$15.3 billion.

Personal saving -- DPI less personal outlays -- was a negative \$15.0 billion in September, compared with a negative \$49.0 billion in August. Personal saving as a percentage of disposable personal income was a negative 0.2 percent in September, compared with a negative 0.5 percent in August. Negative personal saving reflects personal outlays that exceed disposable personal income. Saving from current income may be near zero or negative when outlays are financed by borrowing (including borrowing financed through credit cards or home equity loans), by selling investments or other assets, or by using savings from previous periods. For more information, see the FAQs on "Personal Saving" on BEA's Web site. For a comparison of personal saving in BEA's national income and product accounts with personal saving in the Federal Reserve Board's flow of funds accounts and data on changes in net worth (which help finance consumption), go to <http://www.bea.gov/bea/dn/nipaweb/Nipa-Frb.asp>.

### **Real DPI and real PCE**

Real DPI -- DPI adjusted to remove price changes -- increased 0.8 percent in September, compared with an increase of 0.2 percent in August. In September, the larger increase in real DPI than in current-dollar DPI reflected a decrease in the PCE implicit price deflator, which is used to deflate DPI. The decrease in the PCE price index primarily reflected decreases in energy prices. The PCE price index decreased 0.3 percent in September, in contrast to an increase of 0.3 percent in August. The PCE price index, excluding food and energy, increased 0.2 percent, compared with an increase of 0.3 percent.

Real PCE -- PCE adjusted to remove price changes -- increased 0.4 percent in September, in contrast to a decrease of 0.1 percent in August. Purchases of durable goods increased 2.1 percent, in contrast to a decrease of 1.5 percent. Motor vehicles accounted for about one-third of the increase in September and accounted for the decrease in August. Purchases of nondurable goods increased 0.3 percent in September, in contrast to a decrease of 0.2 percent in August. Purchases of services increased 0.2 percent in September and in August.

## Revisions

Estimates have been revised for July and August. Changes in personal income, current-dollar and chained (2000) dollar DPI, and current-dollar and chained (2000) dollar PCE for July and August -- revised and as published in last month's release -- are shown below.

	Change from preceding month							
	July				August

<sup>p</sup> Preliminary

<sup>r</sup> Revised

1. Consists of nonmortgage interest paid by households.

2. Equals disposable personal income deflated by the implicit price deflator for personal consumption expenditures.

3. Population is the total population of the United States, including the Armed Forces overseas and the institutionalized population. The monthly estimate is the average of estimates for the first of the month and the first of the following month; the annual and quarterly estimates are averages of the monthly estimates.

1. Consists of nonmortgage interest paid by households.

2. Equals disposable personal income deflated by the implicit price deflator for personal consumption expenditures.

3. Population is the total population of the United States, including the Armed Forces overseas and the institu-

tionalized population. The monthly estimate is the average of estimates for the first of the month and the first of the following month; the annual and quarterly estimates are averages of the monthly estimates.
