The data will be used in compiling the U.S. international transactions accounts and the national income and product accounts. The information will also be used to formulate U.S. policy and to analyze the impact of that policy, and the policies of foreign countries, on such international transactions.

These civil penalties are subject to inflationary adjustments. Those adjustments are found in 15 CFR 6.4. Persons who willfully fail to report shall be fined not more than \$10,000 and, if an individual, may be imprisoned for not more than one year, or both. Any officer, director, employee, or agent of any corporation who knowingly participates in such violations, upon conviction, may be punished by a like fine, imprisonment, or both. (See 22 U.S.C. 3105.) Notwithstanding the above, a U.S. person is not subject to any penalty for failure to report if a valid OMB control number is not displayed on the form. A. Who must report — A response is required from each U.S. insurance company that was notified by BEA about the survey.

I. WHO IS TO REPORT AND GENERAL COVERAGE

1. Mandatory and voluntary reporting

(a) Mandatory reporting – A complete BE-45 report is required from each U.S. insurance company that engaged in reinsurance transactions with foreign persons, that earned premiums from, or incurred losses to, foreign persons in the capacity of primary insurers, or that engaged in international sale or purchase transactions in services auxiliary to insurance. Filing is mandatory if, with respect to these transactions, any of the following eight items was greater than positive \$8,000,000 or less than negative \$8,000,000 for the previous calendar year or is expected to be in the current calendar year, on an accrual basis: (1) premiums earned, and (2) losses, on reinsurance assumed; (3) premiums incurred, and (4) losses, on reinsurance ceded; (5) premiums earned, and (6) losses, on primary insurance sold; (7) sales of, and (8) purchases of, auxiliary insurance services.

Complete Schedule A, columns 3 and 4, for each of the four quarters of the calendar year for transactions that occurred during the reporting quarter.

Complete Schedule B, Sections III, IV, and V, for the fourth quarter of the calendar year for transactions that occurred during the entire calendar year (on an annual basis).

- (b) Voluntary reporting Please complete Schedule A, columns 5 and 6, on a voluntary basis for each of the four quarters of the calendar year for losses that occurred during the reporting quarter. Provision of this information is voluntary. The estimates may be judgmental.
- Exemption A U.S. person receiving this form from BEA is not required to report data if transactions fall below the threshold described in A.1. However, it must complete and return Parts and II.
- B. Transactions involving a broker At times, insurance transactions between a U.S. person and a foreign person may be arranged by, billed through, or otherwise facilitated by, a broker, agent, or intermediary. In order to avoid duplication, the data should be reported by the insurance company assuming the risk of recovering or paying the loss. Brokers, agents, and intermediaries are generally not to report.
- C. Consolidation A U.S. enterprise should file a single Form BE-45 covering combined (total) insurance services transactions of all its domestic subsidiaries, and parts, that are insurance services providers.

Consolidating unincorporated enterprises Consolidate into your BE-45 report the transactions of unincorporated enterprises in which your company has voting control. Please see the following items on determining the voting interest in typical unincorporated enterprises.

Partnerships – Most partnerships are either general partnerships or limited partnerships. Consolidation of partnerships and inclusion of their insurance services transactions (purchases and sales) on the BE-45 survey is based on voting control.

(a) General partnerships

Determination of voting interest – The determination of the percentage of voting interest of a general partner is based on who controls the partnership. The percentage of voting interest is not based on the percentage of ownership in the partnership's equity. The general partners are presumed to control a general partnership. Unless a clause to the contrary is contained in the partnership agreement, a general partnership is presumed to be controlled equally by each of the general partners.

Managing partners — If one general partner is designated as the managing partner, responsible for the day-to-day operations of the partnership, this does not necessarily transfer control of the partnership to the managing partner. If the managing partner must obtain approval for annual operating budgets and for decisions relating to significant management issues from the other general partners, then the managing partner does not have a 100 percent voting interest in the partnership.

(b) Limited partnerships

Determination of voting interest – The determination of the percentage of voting interest in a limited partnership is based on who controls the partnership. The percentage of voting interest is not based on the percentage of ownership in the partnership's equity. In most cases, the general partner is presumed to control a limited partnership, and therefore, have a 100 percent voting interest in the limited partnership. If there is more than one general partner, the partnership is presumed to be controlled equally by each of the general partners, unless a clause to the contrary is contained in the partnership agreement. Therefore, unless a clause to the contrary is contained in the partnership agreement, limited partners are presumed to have zero voting interest in a limited partnership.

Managing partners – See discussion under "General Partnerships" above.

(c) Limited Liability Companies (LLCs)

Determination of voting interest – The determination of the percentage of voting interest in an LLC is based on who controls the LLC. The percentage of voting interest is not based on the percentage of ownership in the LLC's equity. LLCs are presumed to be controlled equally by each of its members (owners), unless a clause to the contrary is contained in the articles of organization or in the operating agreement.

GENERAL INSTRUCTIONS — Continued

Managing member – If one member is designated as the managing member responsible for the day-to-day operations of the LLC, this does not necessarily transfer control of the LLC to the managing member. If the managing member must obtain approval for annual operating budgets and for decisions relating to other significant management issues from the other members, then the managing member does not have a 100 percent voting interest in the LLC.

II. WHAT TO REPORT

- A. Report transactions with affiliated foreign persons as well as with unaffiliated foreign persons (see Definitions IV.J and K). File separate schedules to report transactions with (1) your foreign affiliates, (2) your foreign parent(s) and other members of the foreign parent group, and (3) unaffiliated foreign persons.
- B. Report transactions with alien insurance groups, whether or not funds remitted to and from these organizations are cleared through their American trust funds.
- C. Note that the criterion for reporting is whether the transaction is between a U.S. person and a foreign person. It is immaterial whether the assets insured are located in the United States or abroad.
- D. Report transactions with U.S. affiliates of foreign firms for the account of their foreign parent firm. (Report them on the form covering your transactions with unaffiliated foreign persons.)
- E. Report transactions with foreign persons made by your foreign affiliate for your account. (Report them on the form covering your transactions with unaffiliated foreign persons.)

III. WHAT NOT TO REPORT

F. Finite insurance and finite reinsurance — Finite insurance and reinsurance contracts transfer a limited amount of insurance risk from the policyholder to the insurer with the policyholder retaining a significant portion of that risk. Contract terms and features that can limit the transfer of insurance risk include the following: (1) Contract terms that result in the premium paid by the policyholder plus anticipated investment income earned by the insurer on that premium approximately equaling the reimbursements (including claim recoveries and any contract adjustments) expected by the policyholder from the insurer (2) Adjustable features that result in profit-and-loss sharing arrangements between the policyholder and the insurer (3) A contract coverage period that extends beyond one year and premiums for subsequent periods that may depend on the loss experience of earlier years (4) Limits on the amount of claims to be paid by the insurer (5) Loss corridors that limit or eliminate the risk of loss for a specified percentage or dollar amount of claims within the range of contract coverage (6) Favorable contract termination provisions, for example, that would result in a loss to the policyholder (7) Premiums that are a substantial percentage of the maximum coverage provided.

Types of finite insurance include, but are not limited to, loss portfolio transfers, adverse development coverages, and spread loss coverages. There may be other types of finite reinsurance that are not explicitly listed but are substantially identical in function and should **not** be reported on the survey as well.

- G. Do not report transactions with U.S. affiliates of foreign firms for their own account. Transactions with these U.S. affiliates are considered domesticto-domestic for purposes of this survey.
- H. Do not report transactions with foreigners made by your foreign affiliates for their own account.
- I. Do not report premiums to, or losses from, foreign insurance companies on primary or direct insurance. Premiums on such insurance purchased from foreign insurance companies are to be reported on Form BE-120, Benchmark Survey of Transactions in Selected Services and Intangible Assets with Foreign Persons, and Form BE-125, Quarterly Survey of Transactions in Selected Services and Intangible Assets with Foreign Persons
