## New Foreign Direct Investment in the United States, 2023

Expenditures by foreign direct investors to acquire, establish, or expand U.S. businesses totaled \$148.8 billion in 2023 (chart 1), according to preliminary statistics released today by the U.S. Bureau of Economic Analysis. Expenditures decreased \$57.4 billion, or 28 percent, from \$206.2 billion (revised) in 2022 and were below the annual average of \$265.6 billion for 2014–2022. As in previous years, acquisitions of existing U.S. businesses accounted for most of the expenditures.

In 2023, expenditures for acquisitions were \$136.5 billion, expenditures to establish new U.S. businesses were \$7.4 billion, and expenditures to expand existing foreign-owned businesses were \$5.0 billion. Planned total expenditures, which include both first-year and planned future expenditures, were \$175.9 billion (table 1.2).

In 2023, employment at newly acquired, established, or expanded foreign-owned businesses in the United States was 110,000 employees (table 4.2).

Chart 1. New Foreign Direct Investment by Type, 1999–2023

\* Expansions are included in 2014 to present.

Note. The survey used to produce these statistics was not conducted between 2009 and 2013.

U.S. Bureau of Economic Analysis

### Expenditures by industry, country, and state (tables 1.2, 2.2, and 3.2)

By industry, expenditures for new direct investment were largest in transportation and warehousing, but its value is suppressed due to confidentiality requirements.<sup>1</sup> The manufacturing sector, at \$42.9 billion, accounted for 28.8 percent of total expenditures. Within manufacturing, expenditures were largest in chemical manufacturing (\$17.8 billion) and electrical equipment, appliances, and components (\$6.6 billion). There were also notable expenditures in professional, scientific, and technical services (\$16.0 billion).

The country<sup>2</sup> with the largest investment was Canada, with expenditures of \$53.4 billion. Japan (\$14.6 billion) was second, followed by Sweden (\$8.4 billion). By region, Europe contributed 33.8 percent of new investment in 2023.

By state, Missouri received the most investment in 2023, but its value is suppressed due to confidentiality requirements. California received the second-most investment (\$12.8 billion), followed by New Jersey (\$12.1 billion) and Texas (\$10.1 billion).

### Greenfield expenditures (tables 1.2, 2.2, and 3.2)

Greenfield investment expenditures—expenditures to establish a new U.S. business or to expand an existing foreign-owned U.S. business—were \$12.4 billion in 2023. By industry, greenfield expenditures were largest in manufacturing, totaling \$8.9 billion, led by electrical equipment, appliances, and components (\$2.7 billion), which includes batteries. By region of investor, Asia and Pacific (\$8.8 billion) and Europe (\$2.1 billion) had the largest expenditures. By U.S. region, the Southeast received the highest level of greenfield investment (\$6.0 billion).<sup>3</sup>

Total planned expenditures for greenfield investment initiated in 2023, which include both first-year and future expenditures, were \$39.5 billion. By industry, total planned expenditures for greenfield investment were largest in manufacturing, with expenditures of \$35.1 billion, primarily electrical equipment, appliances, and components, which includes batteries. By region of investor, Asia and Pacific had the largest total planned expenditures. By U.S. region, the Southeast had the largest total planned expenditures.

### Employment by industry, country, and state (tables 4.2, 5.2, and 6.2)

In 2023, current employment of acquired enterprises was 106,100. Total planned employment, which includes the current employment of acquired enterprises, the planned employment of newly established business enterprises when fully operational, and the planned employment associated with expansions, was 132,500.

By industry, manufacturing accounted for the largest number of current employees (25,100). Within manufacturing, employment was largest in food manufacturing (7,900) and chemicals manufacturing (5,200). By country, Canada (28,000), the United Kingdom (23,500), and Germany (13,000) accounted

---

<sup>1</sup> BEA is required by law to publish its survey-based statistics in a manner that does not disclose the identity of any survey respondent.

<sup>2</sup> As measured by country of ultimate beneficial owner (UBO; see Additional Information for a description).

<sup>3</sup> U.S. region is highlighted rather than U.S. state due to confidentiality requirements.

for the largest number of employees. By state, California (12,800) had the largest employment resulting from new investment, followed by Texas (8,200) and New York (7,900).

New Foreign Direct Investment in the United States, 2024

## Additional Information

### Resources

- Additional data on the expenditures and activities of newly acquired, established, or expanded U.S. businesses are available on BEA's [website](#).
- Stay informed about BEA developments by reading [The BEA Wire](#), signing up for BEA's [email subscription service](#), or following [@BEA\\_News](#) on X, formerly known as Twitter.
- Historical time series for these estimates can be accessed in BEA's [Interactive Data Application](#).
- Access BEA data by registering for BEA's [Data Application Programming Interface](#).
- For upcoming economic indicators, see BEA's [news release schedule](#).
- For more information about the survey of new foreign investment in the United States and the statistics produced from it, see "[New Foreign Direct Investment in the United States in 2021](#)" in the *Survey of Current Business*, BEA's online journal.
- Additional information on new foreign direct investment in the United States in 2022 will be published in August in the [Survey](#).
- More information on foreign direct investment statistics is provided in [U.S. International Economic Accounts: Concepts and Methods](#).
- See the FAQ "[What is the relationship between BEA's new investment statistics and its other statistics on foreign direct investment in the United States?](#)" for a comparison of BEA's new investment statistics and its other statistics on foreign direct investment in the United States.

### Definitions

**Direct investment** is a category of cross-border investment associated with a resident in one economy having control or a significant degree of influence on the management of an enterprise resident in another economy. Ownership or control of 10 percent or more of the voting securities of an entity in another economy is the threshold for separating direct investment from other types of investment.

A **U.S. affiliate** is a U.S. business enterprise that is at least 10 percent owned by a single foreign person or entity.

A **foreign parent** is the first person or entity outside the United States in a U.S. affiliate's ownership chain that has a direct investment interest in the affiliate.

The **ultimate beneficial owner (UBO)** is that person or entity, proceeding up a chain of majority ownership (where the entity above owns more than 50 percent of the entity below), beginning with and including the foreign parent, that is not owned more than 50 percent by another person. Unlike the foreign parent, the UBO of an affiliate may be located in the United States.

An **acquisition** occurs when a foreign entity acquires a voting interest (directly, or indirectly through an existing U.S. affiliate) of at least 10 percent in a U.S. business enterprise. Acquisitions of additional voting interest in existing U.S. affiliates in which a foreign entity already has a 10 percent voting interest are excluded.

An **establishment** occurs when a foreign entity, or an existing U.S. affiliate of a foreign entity, establishes a new legal entity in the United States in which the foreign entity owns 10 percent or more of the new business enterprise's voting interest.

An **expansion** occurs when an existing U.S. affiliate of a foreign parent expands its operations to include a new facility where business is conducted.

**Greenfield investment** includes establishments and expansions.

### Statistical conventions

The statistics of new investments by foreign direct investors are based on data reported in the Survey of New Foreign Direct Investment in the United States (BE-13), conducted by BEA.

The statistics include transactions resulting from corporate inversions. A corporate inversion occurs when a U.S. corporation that is currently the ultimate owner of its worldwide operations takes steps to become a subsidiary of a foreign corporation. BEA's direct investment surveys do not collect information on whether a U.S. corporation became foreign owned as a result of a corporate inversion. Using publicly available information, such as commercial databases and press reports, BEA estimates that newly inverted U.S. corporations accounted for a significant share of first-year expenditures in 2015 but not in subsequent years. For more information on how corporate inversions affect the new investment statistics, see "[New Foreign Direct Investment in the United States in 2016](#)" in the Survey.

### Related statistics

Statistics on new foreign direct investment are one part of a broader set of U.S. International Economic Accounts that, taken together, provide a comprehensive, integrated, and detailed picture of U.S. international economic activities.

Statistics on direct investment and multinational enterprises (MNEs) include annual statistics on the [activities of U.S. MNEs](#) and [U.S. affiliates of foreign MNEs](#) as well as [detailed annual and quarterly statistics on direct investment](#).

The [International Investment Position \(IIP\) Accounts](#) are released quarterly. The IIP is a statistical balance sheet that presents the dollar value of U.S. financial assets and

liabilities with respect to foreign residents at a specific point in time.

The [International Transactions Accounts \(ITAs\)](#) are released quarterly. The ITAs are a statistical summary of economic activity between U.S. residents and the residents of other countries.

Statistics on [international services](#), released annually, include detailed annual information on trade in services and on services supplied through the channel of direct investment by affiliates of MNEs.

[U.S. international trade in goods and services](#), released by BEA and the U.S. Census Bureau, provides monthly statistics on trade in goods and services.

\* A nonzero value that rounds to zero.

D Suppressed to avoid disclosure of data on individual companies.

1. First-year expenditures include expenditures in the year in which the transaction occurred.

2. Planned total expenditures include first-year expenditures for all investments plus planned future expenditures until completion (and expenditures from past years, if any) for establishments and expansions that are multiyear investments. For acquired U.S. businesses, first-year expenditures and planned total expenditures are the same.

1. The Ultimate Beneficial Owner (UBO) is the entity, proceeding up the foreign ownership chain, which is not more than 50 percent owned by another entity. The UBO is the entity that ultimately owns or controls and thus ultimately derives the benefits and assumes the risks from owning or controlling an affiliate.

2. First-year expenditures include expenditures in the year in which the transaction occurred.

3. Planned total expenditures include first-year expenditures for all investments plus planned future expenditures until completion (and expenditures from past years, if any) for establishments and expansions that are multiyear investments. For acquired U.S. businesses, first-year expenditures and planned total expenditures are the same.

4. The "United Kingdom Islands, Caribbean" consists of the British Virgin Islands, the Cayman Islands, Montserrat, and the Turks and Caicos Islands.

5. The United States is the country of ultimate beneficial owner for businesses newly acquired, established, or expanded by foreign investors that are ultimately owned by persons located in the United States.

1. Statistics are shown for the state in which the newly acquired, established, or expanded U.S. business enterprise is located. If the U.S. business enterprise operates in more than one state, it is the state where the largest number of employees are based; if there are no employees it is the state of incorporation of the U.S. business enterprise.

2. First-year expenditures include expenditures in the year in which the transaction occurred.

3. Planned total expenditures include first-year expenditures for all investments plus planned future expenditures until completion (and expenditures from past years, if any) for establishments and expansions that are multiyear investments. For acquired U.S. businesses, first-year expenditures and planned total expenditures are the same.

4. "Other U.S. areas" consists of the U.S. Virgin Islands, Guam, American Samoa, and all other outlying U.S. areas.

\* A nonzero value that rounds to zero.

D Suppressed to avoid disclosure of data on individual companies.

1. Statistics are shown for the state in which the newly acquired, established, or expanded U.S. business enterprise is located. If the U.S. business enterprise operates in more than one state; it is the state where the largest number of employees are based; if there are no employees it is the state of incorporation of the U.S. business enterprise.

2. First-year expenditures include expenditures in the year in which the transaction occurred.

3. Planned total expenditures include first-year expenditures plus planned future expenditures until completion (and expenditures from past years, if any) for establishments and expansions that are multiyear investments. For acquired U.S. businesses, first-year expenditures and planned total expenditures are the same.

4. "Other U.S. areas" consists of the U.S. Virgin Islands, Guam, American Samoa, and all other outlying U.S. areas.

(\*) Fewer than 50 employees.

1. Statistics include all full-time and part-time employees on payroll and exclude contract workers and other workers not carried on payroll of the U.S. business enterprise.

2. The Ultimate Beneficial Owner (UBO) is the entity, proceeding up the foreign ownership chain, which is not more than 50 percent owned by another entity. The UBO is the entity that ultimately owns or controls and thus ultimately derives the benefits and assumes the risks from owning or controlling an affiliate.

3. Current employment includes the employment of the acquired, established, or new facilities of expanded affiliates at the time the transactions occurred or the investments were initiated.

4. Planned employment consists of the current employment of acquired enterprises, the planned employment of established business enterprises once they are fully operating, and the planned employment associated with the new facilities of expanded business enterprises once they are fully operating.

5. The "United Kingdom Islands, Caribbean" consists of the British Virgin Islands, the Cayman Islands, Montserrat, and the Turks and Caicos Islands.

6. The United States is the country of ultimate beneficial owner for businesses newly acquired, established, or expanded by foreign investors that are ultimately owned by persons located in the United States.

NOTE: Size ranges are given in employment cells that are suppressed. The size ranges are: A-1 to 499; F-500 to 999; G-1,000 to 2,499; H-2,500 to 4,999; I-5,000 to 9,999; J-10,000 to 24,999; K-25,000 to 49,999; L-50,000 to 99,999; M-100,000 or more.
