Section B — Industry Classification

27	What	is the	e one activity below that best describes the major activity of the foreign affiliate? — Mark (X) one.
	NOTE -	— For	r an inactive affiliate, select the activity based on its last active period; for "start-ups," select the intended activity.
	1028	11	Producer of goods
		¹ 2	Seller of goods the foreign affiliate does not produce 1 5 Other – Specify
		¹ 3	Producer or distributor of information 0
		14	Provider of services

28 What is the MAJOR product or service involved in this activity? If a product, briefly state what is done to it, i.e., whether it is mined, manufactured, sold at wholesale, packaged, transported, etc. (For example, "Manufacture widgets to sell at wholesale.")

1029 0

Industry classification of foreign affiliate (based on sales or gross operating revenues)

- Report in columns (1) and (2) respectively, the 4-digit International Surveys Industry (ISI) code(s) and the sales associated with each code. A list of the ISI codes is provided on page 22.
- For a full explanation of each code, see the **Guide to Industry Classifications for International Surveys, 2022** located at www.bea.gov/naics2022.
- For an inactive foreign affiliate, enter an ISI code based on its last active period; For "startups" with no sales, show the intended activity(ies).
- **Holding companies** (ISI code 5512) must show total income. To be considered a holding company, income from equity investments must be more than 50 percent of total income. In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512 (holding company) is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.
- Dealers in financial instruments and finance, insurance, and real estate companies see Special Instructions on page 21.

BEA USE ONLY

Report the number of employees on the payroll at the end of FY 2024 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2024. If the number of employees at the end of FY 2024 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2024. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

DIGITAL ORDERING: SALES OF GOODS AND SERVICES ORDERED VIA E-COMMERCE

E-Commerce refers to the sale of goods or services over a computer network via your company's websites or applications, online marketplaces, an extranet, electronic data interchange (EDI), or by other electronic methods specifically designed for the purpose of placing or negotiating orders. E-commerce occurs when the buyer places an order or the price and terms of the sale are negotiated over computer networks regardless of how payment is made. It excludes sales ordered in-person or via telephone, fax, video conference, manually typed emails or post.

If you reported "Yes" for a., what percentage of sales of services in 94 were provided remotely via ICT networks?.... **DIGITAL INTERMEDIATION PLATFORMS Digital intermediation platform** — an online fee-based marketplace that connects multiple buyers and multiple sellers. The platform does not take economic ownership of the goods nor does it provide the services that are being sold. Fees, both explicit and implicit, may be charged to either the seller, the buyer, or both. Examples of digital intermediation platforms include, but are not limited to: A platform that facilitates the sale of goods by a third party manufacturer or retailer to a consumer. For example, a consumer buys a pair of shoes from a manufacturer through your online marketplace. · A platform that facilitates the on-demand distribution of digital media content (i.e., movies, music, books, or apps) to consumers for which the platform does not hold rights. For example, a consumer purchases an app developed by a third party, for which you do not own rights, through your online marketplace. A platform that facilitates transactions between individuals to share resources such as automobiles (i.e., rides), accommodations, or other durable items. For example, a homeowner offers his vacation home to consumers through your online marketplace. A platform that facilitates transactions between freelance service providers and businesses or consumers. For example, a small business contracts with a freelance graphic designer, through your online marketplace, to create a new logo. 104 Does the foreign affiliate operate a digital intermediation platform? Section E — Research and Development

R&D is planned, creative work aimed at discovering new knowledge or developing new or significantly improved goods and services. This includes:

Basic research is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

Applied research applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

Development is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

R&D includes the activities described above whether assigned to separate R&D organizational units of the company or carried out by company laboratories and technical groups not a part of an R&D organization.

EXCLUDE R&D expenditures for:

- · Costs for routine product testing, quality control, and technical services unless they are an integral part of an R&D project
- Market research
- · Efficiency surveys or management studies
- · Literary, artistic, or historical projects, such as films, music, or books and other publications
- Prospecting or exploration for natural resources

INCLUDE wages, salaries, and related costs; materials and supplies consumed; depreciation on R&D property and equipment, cost of computer software used in R&D activities; utilities, such as telephone, electricity, water, and gas; travel costs and professional dues; property taxes and other taxes (except income taxes) incurred on account of the R&D organization or the facilities they use; insurance expenses; maintenance and repair, including maintenance of buildings and grounds; company overhead including: personnel, accounting, procurement and inventory, and salaries of research executives not on the payroll of the R&D organization. **EXCLUDE** capital expenditures, expenditures for tests and evaluations once a prototype becomes a production model, patent expenses, and income taxes and interest.

Section F — Property, Plant, and Equipment (PP&E)

- PP&E expenditures include expenditures for land, timber, mineral and like rights owned, structures, machinery, equipment, special tools, and other depreciable property; construction-in-progress; and capitalized tangible and intangible exploration and development costs, but excludes expenditures for other types of intangible assets, and land held for resale.
- INCLUDE expenditures for items leased from others (including land). Also INCLUDE the expenditure for the capitalized value of timber, mineral, and similar rights leased by the foreign affiliate from others. **EXCLUDE** items the foreign affiliate has leased to others.
- **EXCLUDE** from expenditures all changes in PP&E, resulting from a **change in the entity** (i.e., due to mergers, acquisitions, divestitures, etc.) or **accounting principles** during FY 2024.
- For foreign affiliates engaged in exploring for, or developing, natural resources, INCLUDE exploration and development expenditures made during FY 2024 that were capitalized, including capitalized expenditures to acquire or lease mineral rights.
- Insurance companies should INCLUDE expenditures (i.e., INCLUDE expenditures that have been classified in "other noncurrent assets") and the net book value of property, plant, and equipment, WHEREVER CLASSIFIED IN THE BALANCE SHEET. Therefore, the opening and closing net book values for property, plant, and equipment will not necessarily reconcile with their balance sheet counterparts (56, 57, and 58).

Part VI — U.S. Exports To and U.S. Imports From Majority-Owned Foreign Affiliate

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2024. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should **INCLUDE** goods only; they should **EXCLUDE** services.

Capital goods — **INCLUDE** capital goods but **EXCLUDE** the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — **INCLUDE** consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — EXCLUDE from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — INCLUDE exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. **EXCLUDE** exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. **EXCLUDE** negotiated fees for software that is to be used on networks.

Natural gas, electricity, and water — Report ONLY the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. DO NOT report the service value (transmission and distribution).

2024 BENCHMARK SURVEY OF U.S. DIRECT INVESTMENT ABROAD FORM BE-10B — ADDITIONAL INSTRUCTIONS BY ITEM

Part IV, Section A — Distribution of Sales or Gross Operating Revenues

92 — 95

Disaggregate the total sales or gross operating revenues into sales of goods, sales of services, and investment income.

- **Sales of goods** Goods are normally economic outputs that are tangible. Sales of goods include, but are not limited to:
 - Mass produced media, including exposed film, video tapes, DVDs, audio tapes, and CDs.
 - Books. NOTE: Report revenues associated with the design, editing, and marketing activities for producing and distributing books that you both publish and sell as sales of services.
 - Energy trading activities where you take title to the goods.
 NOTE: If you act in the capacity of a broker or agent to facilitate the sale of goods and you do not take title to the goods, report your revenue (i.e., commissions) as sale of services in 94.
 - Bulk sales of newspapers and periodicals sold in retail stores.
 NOTE: Report subscription sales as sales of services in 94
 - · Packaged general use computer software.
 - · Structures sold by businesses in real estate.
 - Revenues earned from building structures by businesses in construction.
 - Electricity, natural gas, and water. NOTE: Revenues derived from transmitting and/or distributing these goods, as opposed to revenues derived from the sale of the actual product, should be reported as sales of services in 94.
- 94 Sales of services, including intellectual property rights Services are normally economic outputs that are intangible. Sales of services include, but are not limited to:
 - Advertising revenue, including placement of ads in print, broadcast, or digital media.
 - Commissions and fees earned by companies engaged in finance and real estate activities.
 - Commissions earned by agents or brokers (i.e., wholesalers) who act on behalf of buyers and sellers in the wholesale distribution of goods. NOTE: Agents or brokers do not take title to the goods being sold.

- Newspapers and periodicals sold through subscriptions, whether by mail, electronic subscription, or other means. NOTE: Report bulk sales as sales of goods in 93.
- Transportation, including by air, rail, tanker, truck, or pipeline, and warehousing.
- Income from transactions in intellectual property, including franchise fees and the rights to use, reproduce, and/or distribute intellectual property, including:
 - patents, process, trade secrets, and trademarks;
 - books or music, recorded performances and events, and broadcasting live performances and events, excluding on physical media;
 - general use computer software, excluding on physical media; and
- Computer services, including sales of customized software, cloud computing and data storage services.
- Electricity, natural gas, and water transmission and distribution.
- Report fees or commissions earned from operating electronic markets or platforms that bring together buyers and sellers using the Internet or other electronic means, without taking ownership of the goods nor providing the services being sold.
- Mining services including drilling wells, exploration, and surveying. Includes both initiated and proposed projects.
- Real estate rental income. NOTE: report in columns (2) through (7) based on the location of the property.
- 95 Investment income Report dividends and interest generated by finance and insurance activities as investment income. NOTE: Report commissions and fees as sales of services in 94.

Finance or insurance companies that include investment income in gross operating revenues should report the source of such investment income in 95 columns (2) through (7) based on the location of the issuer of the financial instrument whether publicly issued or privately placed. If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g., trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

- A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.
 - Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — INCLUDE in 45:
 - · impairment losses as defined by FASB ASC 320,
 - realized gains and losses on trading or dealing,
 - unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
 - · goodwill impairment as defined by FASB ASC 350.

EXCLUDE from **45**, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in **68** (all other components of accumulated other comprehensive income (loss)). **EXCLUDE** from **45**, income from explicit fees and commissions. **INCLUDE** income from these fees and commissions as operating revenue in **37**, **42**, and also **86** or **92**, as appropriate and as sales of services in **94**.

- 2. Real estate companies INCLUDE in 45 :
 - impairment losses as defined by FASB ASC 360, and
 - goodwill impairment as defined by FASB ASC 350.

EXCLUDE the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in **37**, **42**, and also **86** or **92**, as appropriate and as sales of goods in **93**. Such expenses, including the net book value of the real estate sold, should be reported as cost of goods sold in **48**. Do not net the expenses against the revenues.

B. Special instructions for insurance companies

 When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-10 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments,

e.g., **INCLUDE** assets not acceptable for inclusion in the annual statement to an insurance department, such as:
1. non-trusteed or free account assets, and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. **INCLUDE** mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

2. Instructions for reporting specific items

- a. Sales or gross operating revenues, excluding sales taxes (42) INCLUDE items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. EXCLUDE income from equity investments in unconsolidated business enterprises that is to be reported in 43 and EXCLUDE certain gains or losses that are to be reported in 45.
- b. Certain gains (losses) (45) See Special Instructions, A.1.
- c. Cost of goods sold or services rendered and selling, general, and administrative expenses (48) INCLUDE costs relating to sales or gross operating revenues, such as policy losses incurred, death benefits, matured endowments, other policy benefits, increases in liabilities for future policy benefits, and other underwriting expenses.
- **d.** Sales of services (94) INCLUDE premium income and income from other services, if any.

Calculate premiums earned by companies engaged in insurance activities as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.

e. Investment income (95) — Report that portion of sales or gross operating revenues that is investment income. However, report any gains or losses on investments, in accordance with **Special Instructions**, A. 1. See **Additional Instructions** for Part IV, Section A, 95, above to determine the location of the transactor of investment income.
